

Message from Chairperson

Dear all students, parents, teachers & partners all over the world

Welcome to join Hong Kong International Science Olympiad Final Round 2020 - 2021. For the 2nd year, there are 8 teams and about 250 candidates to join the final round. This is a wonderful result for all of us to be interested in HKISO which should be held at National University of Singapore, NUS for the second year too. We have 10 active teams from Egypt, Ghana, Hong Kong, India, Indonesia, Philippines, Singapore, Sri Lanka, Thailand and Vietnam from HKISO Heat Round 2020 - 2021.

To inspire curiosity and an attitude of discovery, to promote the understanding that progress has been happening in scientific fields for centuries, to encourage the integration of ideas and subjects, to encourage truth-seeking, to allow students to study important scientists who asked good questions and worked towards good answers, OCEC all decides to organize Hong Kong International Science Olympiad (HKISO) that included a mini experiment in the heat round.

We all wish Hong Kong International Science Olympiad more successful!

We look forward to meeting everybody in HKISO Final 2021 - 2022 at NUS!

All best,

Dr. Andy Lam, PhD in Mathematics -- Concentration in Actuarial Science and Risk Analytics
Chairperson, Hong Kong International Science Olympiad
